

# Training Opportunities for 2023

Hello Everyone!

Welcome to a year of exciting challenges and many 'a-ha' moments if this is your first time connecting with Anazao. To those who have attended Anazao seminars and schools before, here is an excellent opportunity to refresh your understanding, watch new demonstrations or encourage a friend to expand their horizons in 2023.

All our schools are remote via Zoom so you can attend anywhere in the world and most now overlap with weekends so that means minimal time off work. **The good news is that the schools are cheaper than ever before and the seminars are also reduced. Register for all four schools and receive a \$400 bonus.** [Click here for School Fees](#) [Click here for Seminar Fees](#)

**SEMINAR: "Dissociation"** is our first seminar of the year on **Saturday February 25** from 9am-3pm and is designed to introduce people who want a greater understanding of what dissociation is all about without having to commit to completing the Cutting Edge School. As with all Anazao seminars, there will be a demonstration. [Dissociation Seminar Content](#). [Watch our 5 minute video on Dissociation](#). The majority of the content of this seminar is not included in any of the modules in our Cutting Edge School modules. The demonstration will focus on the physical healing of long term injury related to specific remembered trauma. [God Wants To heal So Why Doesn't He? Content](#). These will always be held on a Friday, Saturday and Sunday. **All the schools will be Zoom.** [Watch our 6 min video on the school](#).
